Adam Tamargo

Aaron Williams

David Montoya

Jordan Le

Jonathan Peritz

Melissa Belfer

Sprint 1 Retro

1. What worked well?
 - a. Meeting times
 - b. Pivotal Tracker helped with story creation
 - c. Slack helped communication between team
2. What didn't work well?
 - a. Communication at the beginning of the sprint was rough but this was mostly resolved with slack
3. What should we start doing or improve?
 - a. Improve Github use and make sure that we are committing to separate branches to merge at the end. Better organization in general with code.
 - b. Communicate even more through Slack to ensure goals are being met.
 - c. More in-depth meetings instead of 15 minute quick meetings at the end of class.
4. Actionable items
 - a. Talk more on slack regularly to make sure goals are being met
 - b. Setup different branches on Github for front end and back end and then merge at the end.
 - c. Plan longer meetings that are outside of class / discussion to go in more detail.
